    <p style="padding: 2px;text-align: center;max-width: 720px;margin: 0 auto;">
      This is a webpage to <i>share</i> my ideas. I am very interested in creating webpages and
        design them.
      Creating a webpage is easy. You can create the frontend of a webpage using just html and css.
        This
      is my first creation and i hope to create a lot of webpages in future.
    </p>
    <h3 style="padding: 2px;text-align: center;">
      Lets get into some of my ideas.
